

A-Z Titles (Full Text Finder)

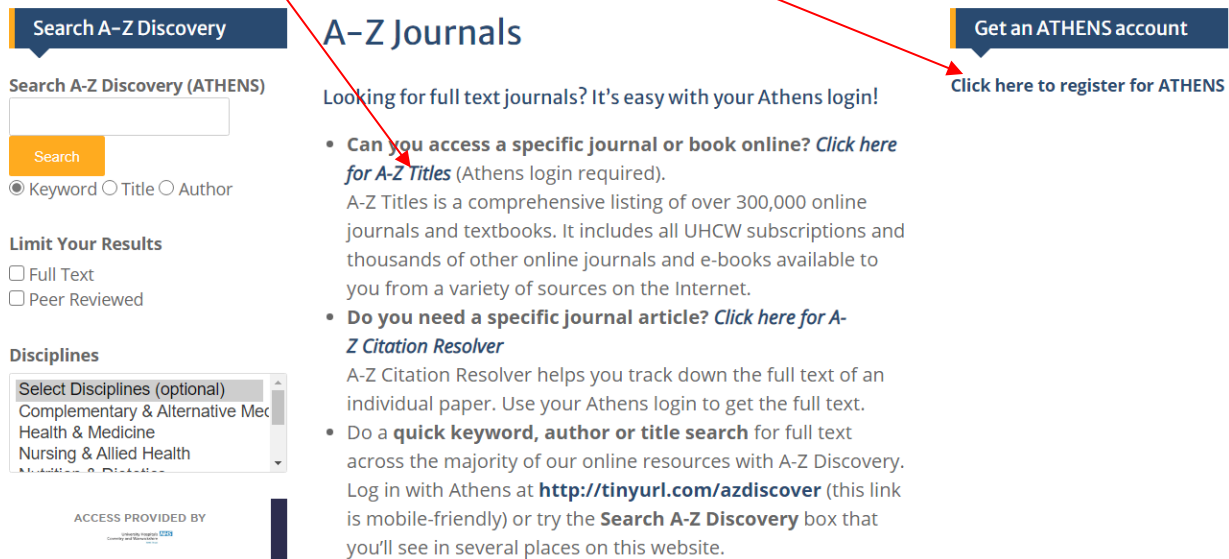

A-Z Titles Full Text Finder lets you locate a specific journal or online textbook to get full text articles and chapters. If you already know the details of the journal or book that you require, this is your first port of call.

Where to find A-Z Titles:

Get there via the TrustNav homepage - click **Useful Information - Library and Knowledge Services** – or via the Library Website uhcwlibrary.org – and choose **Resources - A-Z Journals and E-books**

Then click the **A-Z Titles** link and log in with your UHCW Athens username & password. If you don't have an Athens account, use the registration link in the right-hand column to obtain one.

There are several options for tracking down an article. You don't have to know the full details of the article you require – any combination of the publication details will usually find it.

In this example, we only know the author's surname and part of the article title.

Fill in the details that you know and click **Search**. Log in with Athens if asked to do so. If the details can be matched, you will be taken to available full text options.

1. Zero tolerance to shunt infections: can it be achieved?

The results are linked back to A-Z Titles for access to available full text, and there are options to continue your search in other databases.

Please note that although our A-Z services currently list more than 300,000 journals and e-books, and give you options to search for even more articles in related medical, nursing and allied health databases, they do not include everything!

If you still can't find what you're looking for, or would like help with obtaining specific full text articles or doing a literature search, please contact the library staff (phone 02476 968829 / internal ext. 28829 or e-mail library@uhcw.nhs.uk) or use the **Ask-A-Librarian** option on A-Z Titles or A-Z Discovery.
